

WHAT WE DO

We assign a single case manager to each client to ensure that all care is coordinated and complimentary, that all questions and concerns are answered, and to ensure that the client stays engaged and on track in their own transition. This “concierge” service ties all the support together to get the best results!

**Your “One Stop Shop”
to help Veterans and
their Families to
manage their
transition and
recovery as safe,
stable and healthy
members of society.**

WHO WE ARE

The VNC is a peer run support Headquarters for recovery. We take the individual veteran and do a holistic assessment of ALL their challenges, and then work with our internal staff and community partners to find solutions for ALL of their needs.
